# INNOVATION = VALUE

## COATINGS:

*Go 'green' with innovative binder and additive technologies.*

## ADHESIVES & SEALANTS:

*Conserve energy in production and product use.*

## ELASTOMERS:

*Formulate with alternative raw materials, and do it competitively.*

## CUSTOMERS DEMAND ENVIRONMENTALLY-FRIENDLY PRODUCTS. LET UNIVAR CANADA SHOW YOU HOW YOU CAN GO GREEN.

*We partner with world class suppliers to connect you to new products and the latest technologies, while supporting 'green' initiatives. Our CASE Specialties group supplies a comprehensive line of sustainable raw materials and products that include: solvents, resins, dispersions, de-foamers, biocides and much more.*

*Our industry focused specialists have the experience and training to promote technically differentiated products. Consider Univar Canada your partner to help you succeed in sustainable, innovative product development. Technical expertise, quality, knowledge — it all adds up to value.*

## Find It!

Welcome to the Canadian Finishing and Coatings manufacturing magazine's annual Buyers Guide. This is the most updated and recent guide available in Canada for the paint and coating and finishing industries.

### Alpha Listings

This Guide is colour coded for your convenience and begins with an Alphabetical Company Listing. The company listings offer name, address, contact information and a company description.

### Product and Services Listings

After the Alphabetical listing there are product and services listings that are designed to help guide you to the proper contact. Categories include:

- Industrial Finishes
- Industrial Finishing Equipment
- Paint & Coating Raw Materials
- Paint and Coating Manufacturing Equipment

- Custom Coaters and Job Shops
- Associations, Education and Government

The idea is to locate the product you want, then the company you want under that list and then go to the alphabetical listings in order to contact them.

### Online Too

CFCM has worked diligently to contact manufacturers, suppliers, distributors and associations, allowing them the opportunity to submit a listing for this print version of the Buyers Guide. The information in this Guide was taken directly from our online version at the end of June 2010. If we missed you in this print version please visit us online and add your listing. Listings can be accessed and updated online 24/7 all year. In order for your listing to appear in our print version it must be updated online within the three months, namely April, May to June, in the year of publication.

Visit our Buyers Guide online at <http://www.cfcmmercuryemail.com>. It can also be accessed from our magazine's web site at [www.cfcmm.ca](http://www.cfcmm.ca).

Please contact us if you have any comments, questions or concerns about this Guide.

## CALENDAR OF INDUSTRY EVENTS 2010

**August 3-6:** CSCE 8th International Conference on Short and Medium Span Bridges, at Niagara Falls, ON. Hosted by the Canadian Society for Civil Engineering (CSCE). [www.bridgeconference2010.com](http://www.bridgeconference2010.com)

**August 25-28:** IWF International Woodworking Fair 2010, Atlanta GA. [www.iwfatlanta.com](http://www.iwfatlanta.com)

**September 6-8:** DanubeReal, The Real Estate Exposition for the Danube Region, Exhibition Center Ulm, Germany, Organizer: fairXperts GmbH. [www.danubereal.com](http://www.danubereal.com)

**September 20:** 16th Annual CME Golf Invitational, Clublink's RattleSnake Point Golf Club, Milton, ON. [www.cme-mec.ca/on/events.asp](http://www.cme-mec.ca/on/events.asp)

**September 21-23:** Atlantic Manufacturing Technology Show (AMTS) 2010, Exhibition Park, Halifax, NS. [www.sme.org/amts](http://www.sme.org/amts)

**September 27-29:** CHINACOAT 2010, Guangzhou, China, at the Guangzhou International Convention and Exhibition Center. [www.chinacoat.net](http://www.chinacoat.net)

**October 2-3:** CPCA 2010 Conference in Montreal. [www.cdnpaint.org](http://www.cdnpaint.org)

**October 5-7:** Canadian Manufacturing Week: at the Toronto Congress Center. [www.cmwshow.ca](http://www.cmwshow.ca)

**October 5-7:** 2010 Anodizing Conference & Expo, Marriott Chateau Champlain, Montreal, QC. [www.anodizing.org](http://www.anodizing.org)

**October 12-14:** parts2clean, International Leading Trade Fair for Cleaning within the Production and Maintenance Processes, Exhibition Center Stuttgart, Germany, Organizer: fairXperts GmbH. [www.parts2clean.com](http://www.parts2clean.com)

**October 12-14:** COROSAVE, International Trade Fair for Corrosion Protection, Preservation and Packaging, Exhibition Center Stuttgart, Germany. [www.corosave.com](http://www.corosave.com)

**October 26-29:** NAI (The North American Industrial Coating Show), hosted by The Powder Coating Institute (PCI) and NACE International,

The Corrosion Society (NACE), at the Indianapolis Convention Center, IN. [www.thenaicoatingshow.com](http://www.thenaicoatingshow.com)

**November 2-4:** FABTech/Finishing Expo, Atlanta, GA. [www.fmafabtech.com](http://www.fmafabtech.com)

**Industry News**

**Stewardship Ontario Wins Sustainability Award**

Stewardship Ontario is one of five winners of the inaugural SAP/Richard Ivey School of Business Sustainability Award, which recognizes sustainability initiatives undertaken by Canadian organizations. RBC and Suncor were celebrated as exemplars of sustainability, while Stewardship Ontario, Celestica and Diproinduca were honoured for their role as enablers of both business and personal sustainability.

Winners were chosen from among 17 finalists, following independent adjudication of submissions by the Richard Ivey School of Business. The award was presented in Toronto during the SAP Sustainability in Business Summit, which featured David Suzuki and Stewardship Ontario's own Lyle Clarke as keynote speakers.

[www.stewardshipontario.ca](http://www.stewardshipontario.ca)

**IPC Celebrates Victory in Canada: Canadian Government Will Not Restrict Rosins**

In a victory for IPC members and the Canadian electronics industry, the Canadian Department of the Environment, on June 26, 2010, elected not to ban five rosin-containing substances from all products manufactured and sold in Canada. The Department concluded that the five rosins identified under Batch 10 of the Canadian Chemicals Management Plan are not inherently toxic, bioaccumulative or persistent and, therefore, do not pose a threat to human health or the environment.

In October 2009, IPC along with its Solder Products Value Council

and Environment, Health and Safety Committee submitted comments to the Canadian Department of the Environment with an in-depth analysis of how banning rosins would negatively affect the reliability, functionality and safety of all electronic products.

IPC has been and continues to be a strong advocate for science-based environmental regulations. [www.IPC.org](http://www.IPC.org)

**Company News**

**Arkema Emulsion Systems to Represent Coatex**

Arkema Emulsion Systems has been chosen to represent Coatex thickeners and dispersants in North America. The agreement calls for Arkema Emulsion Systems to provide sales representation in the coatings market in North America. Additionally, Arkema Emulsion Systems will work closely with Coatex to provide product stewardship and application technical service in the selected markets. The announcement was made jointly by Coatex and Arkema Emulsion Systems, both part of Arkema.

The product lines represented by Arkema include ECODIS and COADIS polyacrylate dispersing agents, RHEOTECH associative acrylic thickeners, and COAPUR polyurethane thickeners. Combined with the POLYPHOBE line of rheology modifiers, Coatex offers one of the broadest portfolios of rheology solutions available in the North American coatings market.

**Henkel and BASF Coatings Start Research Joint Venture**

BASF Coatings GmbH and Henkel AG & Co KGaA have signed a joint-venture agreement to develop innovative corrosion-protection solutions for the automotive industry. The

50/50 venture, pending approval of German antitrust authorities, will be headquartered in Düsseldorf, Germany. The joint venture is anticipated to launch in early 2011.

The primary focus of the joint venture will be research and development. It is intended to bring together the unique capabilities of both companies in the areas of metal pretreatment and dip coating to develop products and processes that offer greater benefits in terms of cost, performance and environmental compatibility than the standard corrosion-protection processes currently used within the automotive industry. Following a successful development of these products and processes, Henkel and BASF Coatings intend to jointly market them to the automotive industry.

**Unipex News**

WINCOM Inc. has selected UNIPEX Solutions Canada Inc. (Boucherville, QC) as exclusive distributor for Canada covering their entire product portfolio of specialty corrosion inhibitors. Double Bond Chemical Appoints Unipex Solutions Canada Inc as Exclusive Distributor for Canada Joseph Leon, president of Double Bond USA, announced that Unipex Solutions Canada Inc has been selected to be the exclusive distributor for Double Bond's UV cure raw materials in Canada.

Awng to Mr. Leon, "Unipex has a strong presence in the coatings ingredients and intermediates market and this reflects well on their ability to sell specialty chemical products. They are an excellent partner for our UV cure products."

With North American headquarters in Boucherville, Quebec, Unipex Solutions Canada Inc is a global firm specializing in

the manufacture and distribution of active ingredients, specialty and base chemicals for the cosmetic, pharmaceutical, specialty and industrial chemical and nutrition industries. It is currently present in more than 50 countries and recognized as a leader in its main areas of activity. Double Bond Chemical Ind., Ltd., headquartered in Taipei Taiwan, is a global chemical company with more than 300 employees and a presence in 25 countries across the world. Double Bond produces a wide range of UV products including monomers, oligomers and photoinitiators.

**Norstone Has Moved**

Norstone, Inc., of Bridgeport Pennsylvania manufacturer and supplier of blades and more has moved to a new facility.

Their new information is:

315 E. 4th Street Rear  
Bridgeport, PA 19405  
Office 484-684-6986  
Mobile 215-370-7048  
Fax 610-275-2404

**New Address for Proquip**

ProQuip Consultants Inc. has moved to 20 Densley Avenue, Toronto ON M6M 2R1  
Phone Fax cell and e-mail all unchanged.  
ProQuip Consultants Inc.  
Tel: 416-444-8028

**New Address for Caps N Plugs**

Caps'N'Plugs has moved to 165 Sun Pac Blvd., Unit 4, Brampton ON L6S 5Z6  
Phone & Fax the same.  
P (905) 791-1303  
F (905) 791-3178

**Pricing Updates**

**DuPont Industrial Coating Solutions Announces Price Increases on Epoxy and Polyester Powder Coatings**

DuPont Industrial Coating Solutions announced price increases today of up to 12 per cent on epoxy powder coatings and up to 5 per cent on polyester powder coatings, effective July 20, 2010.

Dupont says the market is faced with an increasing imbalance between supply and demand that has brought about a rapid escalation in chemical feedstock and resin costs. The events and market conditions that are driving these increases are:

- Tight supply of phenol, epichlorohydrin (ECH) and bisphenol A (BPA). Also impacted by the shutdown of some ECH and BPA production lines
  - Increase cost of feedstocks:
    - chlorine, benzene, and propylene
    - Asia Pacific demand increase
    - Strong demand from other applications other than coatings
    - Two force majeure notices from major suppliers in the industry due to operations issues which have severely curtailed supply
- [www.powder.dupont.com](http://www.powder.dupont.com)

**DSM Price Increases**

DSM NeoResins has announced price increases for its liquid acrylic resins and beads and for its urethane resins.

Effective August 1, 2010, DSM NeoResins will increase prices in North America for its liquid acrylic resins and beads and its urethane resins by \$0.05 to \$0.07 per pound, depending on the product line and product, for the entire adhesives and graphic arts portfolio. Various price increases will also take effect globally.

**Ashland Raises Prices**

Ashland Aqualon Functional Ingredients, a commercial unit of Ashland Inc., has increased the global price of its Aquaflo rheology modifier products by 5 per cent effective June 1, or as contracts allow.

Ashland Aqualon has also increased the price of its Combizell and Culminal methylcellulose products effective July 15, or as contracts allow. The price increase will vary between 5 and 10 per cent depending upon local market conditions.

Ashland Aqualon has increased the price of its foam control product lines serving the global coatings, inks, industrial, emulsion polymerization and adhesives industries by up to 10 per cent effective July 28, or as contracts allow. The product lines affected by the increase include Drewplus and Advantage foam control agents.

The global price adjustment is necessary to offset the recent cost increases stemming from regulatory and key raw material pricing pressures. Ashland continues to invest in productivity improvements to help mitigate rising costs. Responding to changing market conditions allows Ashland to improve capacity and product innovation to support customer growth.

[www.ashland.com](http://www.ashland.com)

**Dianal up 40 Cents**

Effective June 1, 2010, Dianal America increased prices on all polymers by up to 40 cents per pound.

[www.dianal.com](http://www.dianal.com)

**Clariant's Emulsion Business Increases Prices**

Clariant has increased its emulsion chemicals prices up to 15 per cent.

The company says price

adjustments are required to compensate for rising costs for all principle raw materials during the first half of 2010, as well as increased transportation and energy costs.

Clariant customers will be contacted individually regarding the specifics of the price increases as they apply to their products and regions.

The price increases will become effective immediately or as contracts allow.

**Eliokem Announces North American Price Increase**

Eliokem has increased prices in North America \$.05 to .15/lb for Pliotec acrylic and styrene acrylic resins depending on the grade and 3 per cent for Pliolite, Hydro Pliolite and Plioway acrylic copolymer resins. The increase was effective on June 1, 2010 or as contracts allow.

The company says this price increase is required to offset the rise in the cost of raw materials which is partially related to the unprecedented short supply of monomers. Other factors such as regulatory, higher energy and transportation costs have also affected the cost of Eliokem's Coating Resins. Eliokem remains committed to providing customers with top quality products and the best service standards.

**International Specialty Products Increase**

International Specialty Products Inc. (ISP) has increased global prices 8 to 10 per cent for selected biocides, including those based on IPBC, Folpet, Tin, and CTL effective July 1, 2010, or as contracts allow.

ISP has also increased global prices for polymers, vinyl monomers, emollients, emulsifiers, preservatives, UV filters, and encapsulates 5 to 7 per cent effective July 1, 2010, or as

contracts allow.

For more information contact ISP Corp. [www.ispcorp.com](http://www.ispcorp.com)

**Coatex Raises Prices of Its Dispersing Agents and Rheology Modifiers**

Effective June 15, 2010, or as contracts allow, Coatex increased the price of its dispersing agents by 10 per cent and of its rheology modifiers by 7 per cent. These increases apply on a global basis and across the different markets served by Coatex. The company says these price increases are necessary as a result of the continuous escalation of the prices of key raw materials.

[www.coatex.com](http://www.coatex.com)

**People  
Powder Coating Hall of Fame Inducts Ken Kreeger of Nordson Corporation**

Ken Kreeger, a major contributor to the powder coating industry during a 40 year career with Nordson Corporation, was honored with a Powder Coating Institute (PCI) Hall of Fame Award at the 2010 PCI Annual Meeting, May 18, 2010 at the Barton Creek Resort in Austin, Texas. Kreeger was introduced by Sam Dawson, a founding member of the Powder Coating Institute, long-time board member and PCI Hall of Fame inaugural class inductee, who reflected on Kreeger's career

# Company Alphabetical Listings

## A Brite Company

3217 Wood Drive, Garland, TX 75041  
P 214-291-0400 F 214-291-0300  
lwinkler@abrite.com  
www.abrite.com

A Brite is a unique American owned international business involved in the development, manufacturing, and marketing of a full line of proprietary chemicals for the plating, anodizing, aluminum extrusion, phosphate, powder coat and environmental industries. Processes include cleaners for all base metals including aqueous and special purpose cleaners; plating procedures for silver, zinc, zinc alloys, copper, nickel, chrome, chrome substitutes, tin and cadmium; metal treatment products for bright dipping, phosphating and specialty products including chromates, lacquers, rust preventatives and environmental products for waste treatment needs.

## A.S. Paterson Company Limited

1110 Sheppard Ave. East - 404,  
Toronto, ON M2K 2W2  
P 416-222-3333 F 416-222-5034  
rpaterson@aspateron.com  
www.aspaterson.com

### Contact: Rod Paterson

A. S. Paterson Company is a 90 year old Canadian distributor of pigments, dyes, waxes, resins and additives for the paint, coatings, ink, plastics and specialty chemical industries. Technical sales representatives located across Canada help companies solve problems.

## ABB Inc.

201 Westcreek Blvd, Brampton, ON L6T 5S6  
P 905-460-3000 F 905-460-3019  
www.abb.ca

ABB is a leading supplier of industrial robots - also providing robot software, peripheral equipment, modular manufacturing cells and service for tasks such as welding, assembly, painting, picking, packing, palletizing and machine tending. Key markets include automotive, plastics, metal fabrication, foundry, pharmaceutical and food and beverage industries. A strong solutions focus helps manufacturers improve productivity, product quality and worker safety.

## Accuspray/AOM Canada Inc.

2612 Mont Echo Road, Sutton, QC JOE 2K0  
P 450-242-1004 F 450-243-5232  
info@accuspray.ca  
www.accuspray.ca  
Contact: Denise Page

Alternate web sites: www.aomspray.com  
www.noveo.ca

Accuspray HVL spray equipment, pneumatic and turbines; AOM HVL and Hybrid guns for waterborne and solvent paints, airless and Air-assist, pneumatic and electric; Noveo Energy Saving Automatic Variable Exhaust Systems for spray booths; Airmax Fittings, pneumatic, hydraulic.

## ACE Equipment Company

4725 Manufacturing Road,  
Cleveland, OH 44149  
P 216-267-6366 F 216-267-6366  
sheran@armaturecoil.com  
www.armaturecoil.com

Family owned since 1919, ACE Equipment manufactures Burn Off and Curing Ovens. The unique design provides high efficiency, uniform temperatures and long life.

## Aceto Corporation

1 Hollow Lane, Lake Success, NY 11042  
P 516-627-6000 F 516-627-6093  
rgoodman@aceto.com  
www.aceto.com

### Contact: Roy Goodman

Aceto Corporation offers a wide range of chemicals for specific use in epoxy, urethane, UV-cured, powder, and polyurea coatings. These include a number of performance additives and a complete line of organic pigments and free-radical and cationic photoinitiators.

## ACT Test Panel Technologies

273 Industrial Dr, Hillsdale, MI 49242  
P 517-439-1485 F 517-439-1652  
brad.kimpell@acttestpanels.com  
www.acttestpanels.com

A wide range of products including ACT Certified Test Panels for coatings R&D; utility grade TRU panels for spray outs and hiding evaluations; appearance panels including color, orange peel, and powder smoothness standards; and corrosion supplies for laboratories.

## Adroit Automation, Inc.

1351 Timberwood Drive, Pittsburg, PA 15241  
P 412-292-0127 F 412-220-3066  
andrew@adroitblue.com  
www.adroitblue.com

### Contact: Andrew Maude

Adroit produces turnkey automated process lines. All systems are designed and commissioned in-house; including controls, hoists, tanks, ventilation and WWT. Adroit's software package WinHoist optimizes random loading, integrates all process equipment and provides full data documentation "quality compliance in-a-box."

## Adwest Technologies, Inc.

1175 North Van Horne Way,  
Anaheim, CA 92806  
P 714-632-9801 F 714-632-9812  
adwestny@roadrunner.com  
www.adwestusa.com

### Contact: Richard Whitford

Adwest has installed over 800 RETOX Dual Chamber Regenerative Thermal Oxidizers for 99 per cent VOC Control for finishing, spray booth, surface coating, chemical and curing oven applications. RETOX RTOs with Natural Gas Injection (NGI) provide Flameless NOx-Free operation with 95 per cent Primary heat recovery for low energy consumption.

## AGC Chemicals Americas

55 Uwchlan Ave., Exton, PA 19341  
P 805-583-5917 F 805-583-5917  
wduarden@agcchem.com  
www.lumiflonusa.com

LUMIFLON fluoropolymer resins are used to make ultra-weatherable coatings for architectural, industrial maintenance, aerospace, and automotive applications. Products include solvent based resins, solid resins for low VOC coatings, water based resins, and powder coating resins.

## Akzo Nobel Wood Coatings Ltd.

155 Rose Glen Rd. N., Port Hope, ON L1A 3V6  
P 905-885-6388 F 905-885-7587  
www.chemcraft.com  
www.akzonobel.com

### Contact: Jeff Snyder

Manufacture a complete line of stains, lacquers, catalyzed coatings, urethanes, polyesters, and UV-cured wood coatings available either directly from the factory, or through extensively trained distributors who offer local service and delivery.

## AkzoNobel Canada

8200 Keele St, Concord, ON L4K 2A5  
P 905-738-7310 F 905-669-3459  
joe.dilecce@akzonobel.com

### Contact: Joe DiLecce

AkzoNobel Interpon powder coatings are distributed in Canada by over 250 ICI Paints stores and Betonel Stores across Canada.  
See Our Ad on Page 9, 30, 32, 33, 35

## Alberdingk Boley Inc.

6008 High Point Road, Greensboro, NC 27407  
P 336-454-5000  
kgaynor@alberdingkusa.com  
www.AlberdingkUSA.com

Alberdingk Boley is a global manufacturer of waterborne emulsions and dispersions for the coatings, adhesives, and printing ink industries. The US manufacturing facility in Greensboro NC produces a variety of products including acrylics, polyurethanes, polyurethane and epoxy acrylic hybrids, and castor oil based polyols.

## Aldonex, Inc.

2917 St. Charles Rd., Bellwood, IL 60104  
P 708-547-5663 F 708-547-5738  
sales@aldonex.com  
www.aldonex.com

### Contact: Alan Miller

Aldonex was founded in 1967, in Bellwood, IL, has since grown to a major National and International Corporation and a leading Manufacturer of DC Power Supplies. Design and wind all of its transformers and cut all of its own iron. Products include, Aldonex SCR Rectifiers, Manual or Motorized variable transformers, Aldonex tap-switch rectifiers, Periodic reversing units, Water cooled rectifiers, SCR pulse rectifiers, Modular power supplies, and Switchmode power supplies. Also offer, new and used D.C. power supplies and other equipment, parts and service. *Opima aqui para version en Espanol.*

## Allcolour Paint Limited

1257 Speers Road, Oakville, ON L6L 2X5  
P 905-827-4173 F 905-827-6487  
rchapman@allcolour.com  
www.allcolour.com

### Contact: Ms. Gwen McManus

Allcolour produces a wide range of high-quality, high-performance coatings for OEM, general industrial, and DBO-duty applications. In business for over 40 years, Allcolour offers the latest technology, environmentally responsible products manufactured in a completely renovated state-of-the-art facility.

## Alliance Industrial Masking

2240 Richard Street, Dayton, OH 45403  
P 937-222-3394  
www.custommasking.net

### Contact: Chris Gray

Provider of custom tape masks with the advantage of next day delivery. With innovative manufacturing process no die is required, that means no die manufacturing fee and no lead time. Eliminate costly hand masking procedures, and improve quality and production.

## Alliance Plastics

2538 Speers Rd, Oakville, ON L6L 5K9  
P 905-825-0134 F 905-825-2919  
lbenvenuto@allianceplastics.com  
www.allianceplastics.com

### Contact: Lee Benvenuto

Alliance Plastics is a worldwide manufacturer and distributor of a complete line of general protection products including caps, plugs, hose protection and bundling solutions, cable ties, electrical and finishing products. Alliance also offers a complete line of masking products, including tapes, discs, caps, plugs, pull plugs, paper masks, tubing and hooks.

## Alliance Surface Finishing Inc.

144 Sharer Road, Vaughan, ON L4L 8P4  
P 905-265-2273 F 905-265-2274  
rangois@asf-powder.com  
www.asf-powder.com

### Contact: Aneta Ranstoller

Class "A" powder coating operation specializing in powder on plastics, metals, glass. Over 400 in stock colors.

## Allied Photochemical Inc.

48 N. Airport Dr., Kimball, MI 48074  
P 810-364-6910 F 810-364-6933  
mkelly@alliedphotochemical.com  
www.alliedphotochemical.com

### Contact: Dan Sweetwood

UV Technology Company - Clear and Color Coatings, UV Dielectrics, UV Conductive Inks, UV E-LElectroluminescence Light Products, Stereolithographic Resins, UV Specialty Formulations - Meeting specific needs.

## Aluminum Anodizers Council

1000 N. Rand Road, Wauconda, IL 60084  
P 847-526-2010  
mail@anodizing.org  
www.anodizing.org

The Aluminum Anodizers Council is the international trade association of firms engaged in aluminum anodizing and whose mission it is to support its members and users of anodized aluminum through education, advocacy, and promotion.

Arya Chem Inc. provides the coatings manufacturer with: Thioplast EPS-resins from Akzo Nobel Functional Chemicals. These are epoxy-terminated, low viscosity polysulphides. A unique class of Polymers, which can be used as a single component or in combination with aromatic glycid ether resins, other epoxies and polyurethanes.

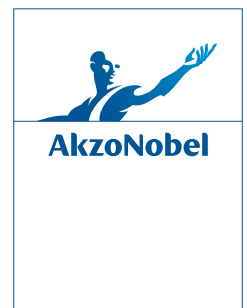

innovation • quality • support • sustainability

## We Bring All the Pieces to the Table

For over thirty years, Chemcraft® has been proudly setting standards for industrial wood finishes. We've earned a reputation for innovative technologies and cost efficient systems; a reputation that will only grow stronger now that we're part of the AkzoNobel family. Our access to a worldwide network of technology and innovation experts will take our products and systems to a whole new level. A large part of that innovation is our eco-strategy; sustainability is a deeply embedded part of our philosophy, and the Chemcraft® brand of products embraces this vision fully. Our eco-friendly products give you lower Volatile Organic Compound (VOC) emissions without sacrificing performance properties and proves that there doesn't have to be a trade off for sustainability. Combine all that with our commitment to superior customer service and support, and you'll see that we have all the pieces in place to continue in our role as the industry leader for years to come. Chemcraft® is the *obvious* choice for industrial wood finishes. Visit [www.chemcraft.com](http://www.chemcraft.com) to locate your nearest distributor.

## DYNAPREP PFH

Pre-Paint Cleaner - Coater

ENVIRONMENTALLY FRIENDLY SOLUTION  
 FOR METAL PRETREATMENT:

- Significant process cost savings.
- Better paint adhesion than iron phosphate.

- Better corrosion protection than iron phosphate.
- Free of phosphate and regulated metals.
- Free of Nonylphenol and nonylphenol ethoxylates.
- Suitable for ferrous and non-ferrous substrates.

### PRETREATMENT SOLUTIONS

- General purpose and heavy-duty cleaners for all substrates and applications.
- Iron, Zinc, Manganese phosphates and topcoats.
- Environmentally friendly chrome-free pretreatments.
- Aluminum cleaners and deoxidizers.
- RoHS compliant coatings.

### Contact us for Information on:

- Anodizing • Black Oxide and Antiquing • Conversion Coatings
- Corrosion Preventatives/Topcoats • Electroless Nickel Plating Processes
- Electroplating Processes • Electropolishing • Phosphating • Pretreatment/Cleaners
- Metal and Paint Strippers • Waste Treatment • Commodities

Water Base Coatings 

We have water based coatings that "really" work!  
 Our coatings will solve any issues you have  
 encountered in the past.

---

- Melamine
- Urethane
- KynarAquatec®
- Epoxy
- UV Cure
- Alkyd
- Acrylic

- Fiberglass
- PVC
- MDF
- Metal
- Wood

- Windows
- Doors
- Kitchen Cupboards
- Office Furniture
- Fine Furniture
- Racking
- Construction Equipment
- Farm Machinery

---

**Resistance to:**

- Water\*Boiling water
- Taber abrasion
- Chemicals
- Freeze Thaw
- Weathering

Kynar Aquatec® is the trademark of Arkema Inc.

Industrial Finishes

A Great Finish is Only the Beginning

---

We have all the pieces in place for success.

- Focused on customer's future & success
- Experienced & knowledgeable distributors
- Commitment to product excellence

Men's Longest Drive winner Jamie Dinsmore (centre).

David Hammett, Microcolor Dispersions.

### TOSCOT DIPLOMA IN COATING TECHNOLOGY GRADS

From left to right: Jason Young: Dempsey Corporation, Denis Florea: DM NeoPaints, Mehul Haria: L.V.Lomas, Munib Sheikh: Protective Coating, Applicator John Vallesteros: Azcor Inc., Flavian Paris: Brenntag Canada, Rahila Roshan: Lorama Chemicals Inc., Michael Miller: Lorama Chemicals Inc.

Mixed Winning Team: Dave Burnside, Cathy Currie, Patrick Lennon and Judson Lew.

# SHOW ENOUGH!

## 4 Show Edition September/October

CFCM is exhibiting at 4 finishing shows for BONUS Circulation;

American Anodizing Council, Montreal, Quebec October 5-7

[www.anodizing.org](http://www.anodizing.org)

Canadian Manufacturing Week, Toronto, Ontario October 5-7

[www.cmwshow.ca](http://www.cmwshow.ca)

NAI Coating Show, Indianapolis, IN, October 27-29

[www.thenaicoatingshow.com](http://www.thenaicoatingshow.com)

FABTECH, Atlanta GA. November 2-4

[www.fabtechexpo.com](http://www.fabtechexpo.com)

## Great Editorial Features

### Paint and Coating Manufacturing

Fillers and Extenders

Rheology Modifiers

Testing

### Industrial Finishing

E-Coat

Flat Line Finishing Systems

Kitchen Cabinet Finishing

Pretreatment and Washing

### Plating and Anodizing

Waste Water

Power Supplies and Rectifiers

## UV specialists since 1960

For an effective UV solution, do what 17,000+ others have been doing for 50 years...contact American Ultraviolet.

### You'll receive:

- Expert advise
- Proven value
- Superior support
- Quick cures at low temps
- 2-year warranty

**Save 10% through December 31, 2010**

on all conveyors, including the Super Cool, which maintains substrate temperatures  $\leq 98^{\circ}\text{F}$  - simply mention this ad.

When it comes to UV, it's all we do. So see what we can do for you.

**American Ultraviolet**  
 Since 1960. It's all we do.

## Can-Am's Turbine- powered Liquid Spray

application system is unique. Its variety of spray guns works very well at pressure ranges of 0.5–8.75psi and cfm outputs of 9–28. These spray guns are used in many industries utilizing liquid spray application.

Industrial Finishing Equipment and Services

**ANNADALE FINISHING SYSTEMS**

FIRST AT THE FINISH LINE

**ANNADALE** provides manufacturing and processing industries with innovative, reliable and cost effective solutions for coatings application and fluid handling challenges.

With years of accumulated experience we are able to provide improved finish quality, reduced operating costs, increased productivity, enhanced application efficiencies and an effective return on investment.

Whether you require a custom engineered turnkey system, a finishing line component, upgrade or retrofit to existing equipment, we would appreciate the opportunity to assist you.

- Conveyors
- Robotics
- Blasting Equipment
- Solvent Recovery
- Water Wash Booths
- Application Tools – Conventional, HVLP, Air Assisted Airless, Airless & Electrostatic
- Chemical Pretreatment

- Automation & Integration
- Air Make Up
- Process Piping
- Paint Mix Rooms
- Liquid & Powder Spray Booths
- Gas, IR, & UV Dry Off & Cure Ovens
- Piston & Diaphragm Pumps
- Electronic Paint Proportioners
- Paint Circulation Systems

**Annadale also represents the following quality equipment manufacturers:**

- Graco
- Aro
- Titan Air
- Wagner
- ABB Robotics
- Jervis B. Webb
- Binks
- CCI DriQuik
- Maxon
- Devilbiss
- Fusion UV
- Sata

*Annadale would appreciate the opportunity of working with your engineering, production, purchasing, and maintenance teams from the application concept stage through to installation, start up, training and after sales service.*

**ELECTRO-STEAM GENERATOR**

MONEY \$\$\$ stays in your pocket preparing metal surfaces when using an Electro-Stream Generator Cleaner.

Creates a total Phosphatizing and Cleaning System for preparing metal surfaces for Powder Coating or Painting.

**ADVANTAGES:**

- ◆ 50-75% less chemicals used
- ◆ 50-75% less water used
- ◆ 50-75% less contained Effluent
- ◆ Exact continous chemical mixing
- ◆ Meets several Mil Specs.
- ◆ Dries Quickly

**SAFETY FIRST:**

- ◆ No Dangerous Flames
- ◆ No Noxious Fumes
- ◆ No Combustable Fuel
- ◆ No Fuel Storage

**MADE IN THE USA**

## Finishing Solutions

1-877-844-7226 • [www.graco.com/finishing](http://www.graco.com/finishing)

## BOOST your PRODUCTIVITY

Innovative finishing solutions to boost your bottom line

Graco equipment improves productivity, reduces paint usage costs, lowers emissions and consistently provides better finishes.

Whether you are circulating paint or staining cabinets, count on Graco finishing equipment to get the job done right.

Call today for more information 1-877-844-7226.

FINISH

**BINKS**  
**MX** PISTON PUMPS  
SERIES

**FEATURING BINKS NEW AA1600M  
AIR ASSIST AIRLESS SPRAY GUNS**

- 1 Reduce rejected parts:** Superior atomization and a smooth consistent spray pattern
- 2 Reduce coating costs:** Patented design ensures smooth changeover at lower fluid pressures
- 3 Reduce air costs:** Low pulse design enables lower shaping air pressures for better transfer efficiency

*Models to support  
1 or 2 spray guns  
with thin to medium  
viscosity coatings.  
Ideal for opaques,  
stains and sealers.*

**NORSPEC**

F I L T R A T I O N

**NORSPEC FILTRATION LTD.** is an industry leader in the supply of filtration products, serving the paint and coatings industry for close to 25 years. Norspec offers filters for both the industrial paint spray market and automotive collision repair aftermarket. Filters for downdraft spraybooths, crossdraft spraybooths, panel filters, diffusion media pads and blankets, paint overspray filters, high temperature filters, replacement filters for powder booths, compressed air filtration, compressor filters or liquid filtration. We are Canada's single source for filters.

## Canada's #1 SOURCE FOR COATING INSPECTION and TEST EQUIPMENT

STONE TUCKER is pleased to announce the latest addition to the DeFelsko line of measuring instruments the **NEW POWDER CHECKER**

- affordable
- no wires or cable to mark your powder
- No calibration required for most powders
- advanced technology allows measurement on tubes, odd-shaped parts, and moving part

DO THESE GUNS  
LOOK GREEN TO YOU?

A FULL LINE OF CORDED AND CORDLESS GUNS FOR EVERY APPLICATION

---

**Though they may not look green, Ransburg Vector, Vector Solo and No. 2 Gun not only deliver high quality finishes but also help protect the environment.**

These guns offer superior transfer efficiency and color versatility while improving productivity and reducing waste. Our Ransburg Electrostatic Equipment helps end users achieve environmental responsibility as well as enhanced finish quality.

Ransburg Electrostatics...

- Reduce Overspray
- Reduce VOC's
- Reduce Cleanup
- Reduce Sludge

To find out more about how ITW Ransburg Electrostatic Guns can benefit your operation – and the environment – contact your authorized Ransburg distributor today! Tell them you want to check out some green guns. **Visit our website [www.itwransburg.com](http://www.itwransburg.com) or call 1-800-223-3366.**

## NEW PRODUCTS AND TECHNOLOGIES

### New from Stone Tucker

Stone Tucker Instruments is pleased to announce the next generation of non-contact powder thickness gages. The PosiTector PC Powder Checker measures uncured powder coatings using ultrasonic technology to automatically calculate and display a predicted cured thickness.

With no wires or cables to risk disturbing the powder, now you can affordably measure powder thickness before curing. The PosiTector PC Powder Checker helps control powder consumption to lower cost and reduce waste. Advanced new technology allows measurement on small tubes, odd shapes and moving parts. The American made PosiTector PC Powder Checker features an internal memory of up to 1,000 readings with no software required for downloading. The gage continually displays/updates basic statistics and automatically generates formatted reports with measurement summaries and charts. For more information Contact Stone Tucker Instruments (905) 892-6142 or on the web [www.stone-tucker.com](http://www.stone-tucker.com)

## IN THE NEWS

continued from page 5

and accomplishments in the powder coating industry.

Kreeger, who recently retired from Nordson, first began working in the powder coating industry in 1974. He joined the PCI in 1983 and has been a fervent ambassador for the powder coating industry ever since. Throughout his many years as a speaker at technical conferences,

major trade shows and numerous PCI technical training workshops, he has been instrumental in educating and mentoring countless PCI members and powder coating professionals.

Kreeger's technical authority was also key to the development of the Powder Coating Handbook, a highly-regarded industry resource manual used the around the world, which he continues to contribute to regularly.

Upon receiving a special plaque from Dawson and PCI Executive

Director Steve Houston, Kreeger commented, "What a great honor it is to be recognized by your peers. I've been very fortunate to work with so many wonderful people over the years, and I am thankful to have had the opportunity to contribute to the success of the Powder Coating Institute."

The PCI Hall of Fame Awards recognize individuals who have made outstanding contributions to the powder coating industry and have

given many years of dedicated service to The Powder Coating Institute. In addition to receiving a distinctive plaque, honorees names are etched onto a special PCI Hall of Fame wall display at the PCI Office.

### Devonport Joins Arkema Emulsion Systems as Research Leader

Wayne Devonport, Ph.D., has joined Arkema Emulsion Systems in Cary, N.C., as a global coatings research leader. Devonport will be responsible for the global research and product development strategy for coatings binders used in architectural formulations. Prior to joining Arkema Emulsion Systems, Devonport was synthesis group leader for The Dow Chemical Company in Spring House, Pa.

In addition to Dow, Devonport worked as a research scientist for Cabot Corporation and as a product development scientist for Argonaut Technologies. He holds a Bachelor of Science honors degree from the University of Bradford, Bradford, UK, and a doctorate in chemistry from the University of Durham, Durham, UK. He is a published author in 20 peer-reviewed publications, and holds 17 U.S., EU and world patent families.

### Retirement at Dumond

Dumond Chemicals, Inc. Of New York, announces the Retirement of Long Time President & CEO Hy Dubin After Distinguished Career of 29 years. John J. Petroci III has been named President & CEO effective immediately.

# Better protection. Safer chemistry.

Add better protection with  
**Buckman's Flamebloc® GS**  
series fire retardants

**The Flamebloc GS series fire retardants** are Buckman's new portfolio of environmentally responsible fire retardants designed to meet industry needs for green fire retardant technology.

Flamebloc GS products are comprised of a new and novel technology based on amino functional ammonium polyphosphate chemistry manufactured from 100% GRAS raw materials. These clear, water-based, zero VOC products do not require a halogen donor in order to provide char-forming and intumescent substrate protection meeting Class A & B and ASTM flame testing standards.

## Buckman

Commitment makes the best chemistry.

Paint & Coating Raw Materials

# Stuck On You or Slip Sliding Away ...

**CoatOSil MP 200** - Momentive's newest 100% active epoxy silane. It can be used as a binder, crosslinker and adhesion promoter in both water and solvent based coating systems. CoatOSil\* MP 200 Silane Oligomer generally requires lower loading levels and generates fewer VOCs when compared to standard epoxy silanes.

**CoatOSil DSA-6** - A friction modifier that is a 100% active free flowing powder. It acts as a durable slip agent in coatings providing a smooth feel. Key attributes are significant COF reductions at low loading levels and broad range compatibility with coating chemistries.

**CoatOSil 2812** - This coating additive is a linear silicone-polyether with reactive alcohol end groups. It can reduce coefficient of friction (COF), enhance slip and mar resistance in waterborne, water reducible, conventional, high-solids solvent based systems and can be reacted into a reactive urethane coating.

Canada Colors and Chemicals is the exclusive distributor in Canada for Momentive Performance Materials

Brian Duke  
973-443-4014

**When we introduced our new EcoVAE emulsions last year**, we told you that VAE (vinyl acetate ethylene) technology would be the foundation for a new generation of consumer pleasing, eco-friendly paints. After just over a year in the market, formulators of all types of paints have found that EcoVAE strikes the balance that everyone has been looking for in making high quality, high performing, people-friendly products.

They've discovered that formulating with EcoVAE is uncomplicated. That the paints they make with it show excellent scrub, stain resistance and touch-up performance. And that EcoVAE technology is suitable for a broad range of interior paints – from premium brands to contractor flats.

**If you've already found EcoVAE, thanks for your support. If you haven't...maybe it's time you discovered the next generation low VOC emulsion that everyone in the North American paint industry is talking about.**

*Your future is our focus...worldwide.*

# Your active intermediate

## **Ethics, Commitment, Loyalty**

Three basic principles that have earned Inortech an enviable reputation for honesty, integrity and unparalleled customer service. These fundamental principles have attracted highly qualified employees. Their varied expertise positions us to better understand and meet customer needs and supplier expectations.

Our unique technical service and R&D laboratory provides an added dimension to the in-depth technical expertise and cutting edge technology for which Inortech is already recognized.

The Inortech team constantly strives to improve customer service and increase our supplier's visibility in the focused markets we serve: coatings, ink, adhesive, and plastic.

Together we can go... **BEYOND**  
*chemistry*

**INORTECH**  
CHEMIE INC.

# Voire intermédiaire actif

## **Éthique, Engagement, Loyauté**

Voici trois principes de base qui ont valu à Inortech son enviable réputation d'honnêteté et de service à la clientèle inégalé. Ces principes fondamentaux ont attiré du personnel de haut calibre. Leurs expertises variées nous donnent une position privilégiée pour mieux comprendre et répondre aux besoins et demandes de nos clients ainsi qu'aux attentes de nos fournisseurs.

Notre laboratoire de service à la clientèle et de R&D a confirmé et a donné une nouvelle dimension ainsi qu'une profondeur d'expertise technique et d'innovation à l'avant-garde de la technologie qui était déjà reconnue à Inortech.

L'équipe d'Inortech travaille sans relâche pour améliorer son service à la clientèle et augmenter la visibilité de nos fournisseurs dans les marchés que nous desservons : revêtements, encres, adhésifs et plastiques.

Ensemble nous irons... **AU-DELÀ**

# Brilliant Additions<sup>SM</sup>

Formulators searching for solutions turn to Brilliant Additions: the industry's most comprehensive portfolio of functional mineral fillers. Whether your objective is brightness and color development, transparency or hiding power, chemical and UV stability, green formulating or cost management, we can provide a solution.

For more information and our complete product portfolio visit:

# THE CONN BLADE®

Patented blending/dispersing blade design makes radical improvement over old saw tooth designs

- \* Most efficient and aggressive blending/dispersing blade available.
- \* Provides proper combination of pumping action and shear/dispersion essential for fast consistent results.
- \* Built in pumping action cuts processing time.
- \* Longer life due to heavier gauge construction.
- \* Less heat due to shorter required running time.
- \* Excellent for high or low speed and high or low viscosity.
- \* Supplied with hubs or mounting holes required to retrofit and upgrade present equipment.
- \* Pumping blades without teeth are available and are excellent for gentle blending and agitation.

DESIGNERS AND MANUFACTURERS OF INDUSTRIAL MIXING EQUIPMENT

Since 1948

## NEW PRODUCTS AND TECHNOLOGIES

### Wagner Introduces SuperCenter Powder Center

The new Wagner SuperCenter's central operation with high-resolution color touch screen includes easy to understand symbols and clear text command buttons. Automatic color change with the interactive user guidance system is easy. Operators can choose standard mode, short batch mode, spray to waste or spray to recovery to fit the demands of the job at hand. Coating performance can be monitored and documented. Powder consumption data can be downloaded to a PC or laptop.

### Clariant simplifies pigment dispersion

Clariant launches its new range of ED Pigments. Previously only available for solvent-based industrial coatings systems, Clariant's ED Pigments range has been expanded to simplify the pigment dispersion process for all paint systems and applications by removing the need for an expensive and time consuming milling step.

Clariant's extended ED Pigment range includes:

- EDS pigments: Easily Dispersible pigments for solvent-based industrial paints
- EDU pigments: "Universal" Easily Dispersible pigments for industrial systems, ideally designed for water-based but also compatible for solvent-based systems
- EDW pigments: Easily Dispersible pigments for water-based pigment dispersions used in decorative paints

To avoid compatibility issues, the same additive is used for each product range. ED Pigments can be co-dispersed in one mill base formulation with organic and inorganic pigments to achieve a specific color shade.

## SUPERIOR FINISHES INC.

### EMPLOYMENT OPPORTUNITIES

Like the Republic Iron  
SEQUEL® PARTS pass  
the heat of time

#### TECHNICAL WOOD SALES REP.:

An upcoming employee transfer has created this opening reporting to our head office in Winnipeg, MB. A minimum of 10 years experience with solvent / water base; UV products; and all forms of application equipment.

#### QUALITY CONTROL:

Increased business requires additional personnel in our QC Dept.

#### SENIOR FORMULATING CHEMIST:

Ideal candidate will have Industrial Coatings experience.

#### Send Resumes to:

Gang Hu, PhD

# Electroless Nickel ELeVEN® – The ELV / WEEE / RoHS Impact on Your Electroless Nickel Plating

In the year 2000, the European Union (EU) introduced its directive 2000/53/EC, End of Life Vehicle (or ELV) with the aim of eliminating materials that will not allow for easy and acceptable recycling of components used in the manufacture of automobiles. This came into effect on 1st July 2003. Similarly, the same objectives are covered by the Restriction of Hazardous Substances (RoHS) which came into force on 1<sup>st</sup> July 2006, as part of the Waste of Electrical and Electronic Equipment (WEEE) directive 2002/95/EC.

Atotech has ELV, WEEE and RoHS compliant processes and systems to allow applications within the automotive and electrical/electronic industries to be fulfilled eliminating the codeposition of unacceptable elements. They allow the safe recycling of electroless nickel plated components at the end of their useful life. Our processes and systems also meet the requirements of the International Standard ISO 4527:2003 for autocatalytic plating (catalytic chemically reduced coatings) and all national standards.
